EMERGENCY AND SPACE COMMUNICATIONS IN THE PARK

Ham Radio Field Day and public demos

Boston Amateur Radio Club Field Day station will be open to the public Saturday and Sunday, June 25-26 at Larz Andersen Park in Brookline. Guided tours and visitor participation are from 2 to 8 PM Saturday and 9AM to 1 PM Sunday. This is an opportunity to learn and ask questions for people from kindergarten to age 100. See how ham radio spans technology from Marconi to the Internet, and find how it adds a new dimension to teaching. Visitors from the Clay Center / Dexter and Southfield Schools and from the first grade HAMsters of Belmont Winn Brook School are expected.

+++++

Thank you for your attention to this event.
